ACKNOWLEDGEMENTS

xiii

1 Introduction 1

- 1.1 Examples, 2
- 1.2 Building Ten Thousand is Very Different from Building One, 6
- 1.3 Product Realization is a Marathon, 8
- 1.4 The Factory is Not a Giant 3D Printer, 9
- 1.5 Three Rules, 9
- 1.6 Why Learn about Product Realization?, 10
- 1.7 Book Structure, 12
- Summary and Key Takeaways, 15

2 Are You Ready to Start? 16

- 2.1 Is Your Concept Ready?, 17
- 2.2 Is the Technology Mature Enough?, 20
- 2.3 Is the Prototype Mature Enough?, 21
- 2.4 Is the Product Definition Mature Enough?, 22
- 2.5 Is Manufacturing Mature Enough?, 24
- 2.6 Is there Enough Cash and Is there Enough Time?, 25
- 2.7 How Ready is Ready?, 27
- Summary and Key Takeaways, 28

3 Product Realization Process 29

- 3.1 Product Development Processes, 30
- 3.2 Industry Standards, 33
- 3.3 The Pilot Process, 36
- Summary and Key Takeaways, 52

4 Project Management 53

- 4.1 Roles and Responsibilities, 56
- 4.2 Critical Path, 63
- 4.3 Risk Management, 69
- 4.4 Managing Your Enterprise Data, 74
- Summary and Key Takeaways, 79

5 Specifications 80

- 5.1 Integrating with the Product Development Process, 83
- 5.2 Parts of the Specification Document, 84
- 5.3 Gathering Information, 89
- 5.4 Managing a Specifications Document 98
- Summary and Key Takeaways, 101

6 Product Definition 102

- 6.1 Types of Parts, 105
- 6.2 Bill of Materials, 114
- 6.3 Color, Material, and Finish (CMF), 123
- 6.4 Mechanical Drawing Package, 126
- 6.5 Electronics Design Package, 130
- 6.6 Packaging, 131
- Summary and Key Takeaways, 137

7 Pilot-phase Quality Testing 138

- 7.1 Definition of Quality, 140
- 7.2 Quality Testing, 145
- 7.3 Pilot Quality Test Plan, 149
- Summary and Key Takeaways, 176

8 Costs and Cash Flow 177

- 8.1 Terminology, 179
- 8.2 Non-recurring Engineering Costs, 183
- 8.3 Recurring Costs, 188

8.4 Revenue and Order Fulfillment, 203

8.5 Cash Flow, 205

Summary and Key Takeaways, 210

9 Manufacturing Systems 211

9.1 Production System Types, 214

9.2 Dedicated Manufacturing Facilities, 215

9.3 Areas in a Manufacturing Facility, 220

9.4 Lean Principles, 223

Summary and Key Takeaways, 227

10 Design for Manufacturability and Design for X 228

10.1 Selecting Manufacturing Processes, 230

10.2 Design for Manufacture, 234

10.3 Design for Assembly, 238

10.4 Design for Sustainability, 240

10.5 Design for Maintenance, 242

10.6 Design for Testing, 244

10.7 Design for SKU Complexity, 244

10.8 Eleven Basic Rules of DFX, 245

Summary and Key Takeaways, 251

11 Process Design 252

11.1 Process Flow, 255

11.2 Manual vs. Automation, 257

11.3 Work Allocation to Stations, 258

11.4 Process Plans, 259

11.5 Standard Operating Procedures, 262

11.6 Material Handling, 266

Summary and Key Takeaways, 267

12 Tooling 268

12.1 Types and Their Uses, 270

12.2 Tooling Strategy, 277

- 12.3 Tooling Life-cycle, 282
- 12.4 Tooling Plan, 284
- Summary and Key Takeaways, 286

13 Production Quality 287

- 13.1 Measuring Quality, 289
- 13.2 Tracking Quality, 292
- 13.3 Production Quality Test Plan, 296
- 13.4 Control Plans, 303
- Summary and Key Takeaways, 306

14 Supply Chain 307

- 14.1 Make vs. Buy, 309
- 14.2 Types of Supplier Relationships, 310
- 14.3 Owning Manufacturing or Using a CM, 314
- 14.4 Supplier Selection, 319
- 14.5 Documents, 322
- 14.6 Managing Your Supply Base, 329
- 14.7 Single vs. Dual Sourcing, 330
- 14.8 Touring a Factory, 331
- Summary and Key Takeaways, 334

15 Production Planning 335

- 15.1 Production Planning Concepts, 336
- 15.2 Forecast to Order Timeline, 343
- 15.3 Complicating Factors, 344
- 15.4 Shorter Lead Times are Better, 349
- Summary and Key Takeaways, 350

16 Distribution 351

- 16.1 Distribution Process, 353
- 16.2 Outsourcing Distribution, 358
- 16.3 Distribution System Design, 359
- Summary and Key Takeaways, 362

17 Certification and Labeling 363

- 17.1 Certifications, 364
- 17.2 Labeling and Documentation, 371
- Summary and Key Takeaways, 377

18 Customer Support 378

- 18.1 Warranty, 381
- 18.2 Recall, 383
- 18.3 Customer Support, 385
- 18.4 Customer Support Data, 393
- Summary and Key Takeaways, 399

19 Mass Production 400

- 19.1 Manufacturing Scalability, 401
- 19.2 Continual Improvement, 403
- 19.3 Cost Down, 405
- 19.4 Auditing, 408
- 19.5 Equipment Maintenance, 409
- 19.6 Launching the Next Product, 410
- 19.7 Conclusions, 410
- Summary and Key Takeaways, 411
